

BRUCE KENNEDY FOR SECRETARY OF STATE

A Vision of Voting for Today and Tomorrow

Independent

Bruce Kennedy is the only candidate who is free of a political party. The Secretary of State supervises elections. We need a Secretary who all voters trust to be fair and neutral.

Bruce is both analytical and creative. He has written many laws which simplified, clarified, and improved the legal process, saving money for taxpayers. As a technology “geek,” an election judge, and an advocate for election reform, Bruce has studied voting equipment and will keep Minnesota on the cutting edge with equipment that is accurate, secure, flexible, and inexpensive.

Innovative

Unlike our current Secretary of State, Bruce works well with others and will engage all stakeholders when developing policy.

Collaborative

Bruce has run his own law practice for 28 years and is rated in the top 5% of lawyers by Minneapolis-St. Paul magazine. He has been a leader in the Bar Association and has served on many task forces to improve our legal system and elections.

Competent

STOP COMPLAINING ABOUT POLITICIANS. DO SOMETHING!

I'm doing the heavy lifting; all you need to do is support me and help however you can.

I am the little guy battling against the major parties. I stand for:

- Neutral election administration
- Public ownership of election software
- Voting equipment that measures rankings so we never waste our vote
- Level playing field for third parties
- Better informed voters—quality of vote, not just quantity
